HOW TO MAKE YOUR MIND A MONEY MAGNET

How To Make Your Mind A Money Magnet

First off let's get something straight.

This is a blog about business. It is about creating growth in Micro and Small businesses, but, a great deal of growth in business comes from **what we do and how we act**. How we act comes from our mindset, so it is vitally important that we are in the right frame of mind when trying to grow any business.

Therefore - I am always looking at ways to enhance my own performance and ability through using a variety of tools and resources.

So, I personally use whatever works for me and helps me.

The idea of the Law of attraction may send you running off into the sunset, and I feel the same, however - having tested hundreds of products for my own growth and improvement I share those which have helped me personally. This is one.

DO YOU REALLY THINK THAT YOU CAN ATTRACT MONEY LIKE THIS GUY??? I don't!

I am not a big fan of HYPEY salesy gimmicks, so I am careful to explore what I use and what I share on this blog and with my clients.

And I know that some of you maybe thinking, ummmmmmm I don't think this will help me.

But, the fact is that - the more we think about our financial goals the more we can find ways to grow our revenue - as our brain works on creating solutions to find ways. Whilst Dr Robert talks about the Law of attraction, I am open minded and so I gave it a go. I am not saying I know HOW it works, but I believe that we can create more power to connect with our goals and build laser focus. So, I do believe in the power of the mind to help us create more of what we wish for.

How this is done is up to us of course.

But wait hang on 'who the hell is Dr Robert Anthony Anyway'?

That's a great question and here is the answer:

Dr. Robert Anthony is known the world over as one of the leaders in the Personal Development field. He has worked as a master hypnotist, a psychotherapist, a personal performance trainer and an NLP practitioner. He is also skilled in EFT and several other healing modalities.

Audiences have listened to him speak at literally thousands of seminars, and wealthy clients have been eager to pay hundreds of thousands of dollars for a private consultation. You may have seen him on television; he has often been featured on NBC, CBS and ABC, and major companies such as Proctor and Gamble and Federal Express are numbered among his client list.

He is the author of several books, which together have sold in the millions. He focuses on teaching confidence and abundance; his aim is to teach us all that it is natural to be relaxed and confident, and our natural state is abundance, not poverty or want.

He says that 'if you are not living in abundance you are fighting against the natural flow and order.

His belief is that once you learn how to get into a more powerful state, you can easily start to flow more with your own growth, which will inevitably bring abundance flowing more easily into your life. Dr. Anthony's work deals with such things as your natural inner guidance system, how to know what you truly desire, how to know when it's time to take action, how time can be endlessly deceptive, and the ultimate idea for creating your life by design, not by default.

So, there you go!

MY REVIEW: HOW TO MAKE YOUR MIND A MONEY MAGNET By Dr Robert Anthony

Now, I am personally someone who creates their life by design and believe in this, so I try to help others to also do the same through their ideas and passions.

Mind mastery has always been the top of my priority as I was once out of control. And it became the solution to my own growth and success, so - what better than a review for me to share than this one as it has helped me in many ways.

Many things have helped me but many things haven't helped me; so, I like to go through various products and services to test them over several months and see whether they are fit for my blog or not. I believe that this one is.

DISCLAIMER: Please use your own due consideration when dealing with money matters. There are no guarantees when spending money on a Return on investment, so seek professional advice where necessary before you purchase any product or service which claims to increase your wealth.

By the way, I do not buy into all the fluff and nonsense which is pushed on us about the Law of attraction or anything else, which is only a way of saying that our minds are our power yet claiming that it is universal energy. Personally I have seen no proof of that. This is a product which enables us to harness our own power for greater attempt to increase in revenue.

The mind is the most powerful tool we have, so i believe we have to use it in the right ways, and often we do not.

So when I talk about attraction, I really mean changing your mind in order to start seeing a new perspective from mind power of what is possible and then tapping into the ideas, messages and information our brains create from this.

I was keen to see what this was all about and to try it out. I don't always buy every program or training I see b y the way, but this was something I personally enjoyed. I decided to get my teeth into this and see HOW IT might help me and if it was worth sharing, then share it with you also.

How to make your mind a money magnet

So let 's go deeper.

HOW TO MAKE YOUR MIND A MONEY MAGNET by Dr Robert Anthony my honest opinion.

I know that many people have helped me either directly or through their training.

Sometimes I have gotten coaching, and I have spent in total over £20k so, I have plenty of training and experience there, but there are only a handful of people that I would spend alot of time with. Why?

Very simply because their time is VALUABLE to me.

Meaning that being around them can only INCREASE MY SUCCESS.

So, I do believe that we have to seek out people in our lives who are going to enhance what we do.

For example - I hire others who are better than I am. Why would I waste my time trying to figure out stuff that I am not interested in, nor good at? It makes sense to hire others, so really what I am getting at is that we need to understand where to best place our time and energy. And if there are tools which can help our minds in what we are doing, I am open to trying and testing them out.

Have You Ever Wondered Why Some People Are Just Successful Whilst Others Struggle All Their Lives?

Yepp Me Too! I Needed To Know What I Was Doing Wrong.

It's a Good Job I did aswell, because the reason I increased my growth IS REALLY DOWN TO A FEW simple principles I adopted.

But - if these are obvious then why are 90% of the world struggling????

Good Question!

I got to understand that I AM the Answer, but sometimes we forget that, and we look around hoping for some kind of miracle or amazing mentor to show up. But they don't. And we go around in circles wishing for better days.

I needed guidance as we all do, so I got it, but I also knew it was down to me.

So, let's look at WHO Dr ROBERT ANTHONY is exactly and, how he helped me and maybe even help you to change your financial future.

He is someone who has helped many thousands of people to change their lives around the globe from the inside out and something he teaches is that all success that is sustainable starts within.

Therefore, I wanted to take a look at this program and HOW TO MAKE YOUR MIND A MONEY MAGNET by Dr Anthony. It is another product he created to try to get across HOW the impact of our behaviour really determines our outcomes, so I tried it out.

This program by Dr Robert Anthony I found to be quite interesting and very different to any training I had applied.

I didn't think it could add anything to what I already knew but I was pleasantly surprised by it.

Dr Anthony has managed to pour his wisdom into this to make it workable and powerful tool and as may say 'he only creates life altering material' I was intrigued by it. So I took the free copy.

MY REVIEW: HOW TO MAKE YOUR MIND A MONEY MAGNET By Dr Robert Anthony

Make your mind a money magnet

I am not one of these guys that has to write
"WARNING: DON'T BUY ANYTHING UNTIL YOU HAVE SEEN THIS"!
Frankly I hate pushy sales types and I hate hypey sellers,
plus I don't think that great products need much advertising.
If they are that good or great then they sell and so,
I was compelled to explore this as it was free and as I do with many
any various products and services.

So, what is it about?

Essentially that we are creators and so we either create intentionally what we desire or we end up creating a life by default. We drift around in quiet desperation throughout life, if we have no direct meaning, vision or purpose. And certainly I have found this myself having lived with both areas of life.

The fact of the matter is that deliberate creation has been the key to my own success, otherwise I would keep looking around for opportunities rather than becoming one. So, we tend to get varied and random things given to us in life IF we cannot plan. So what better thing than a tool which can help us to take more of what's ours instead of getting average results?

I have just found that this product is very useful in creating more of that. It is really no secret that mindset is the answer to all success but, really how many of us practice this? And therefore what are our results up to now? If your results in life and business are average or poor then surely you want to change something? I know I did. Other than my own products, I only share what works for me.

I really wouldn't waste my time or energy with anything which doesn't serve me.

So I shared it with a few clients to see what they thought of it also as it did serve me.

I believe in sharing what works, and I am happy to see others successes as much as mine. I do so because I love to help more people and make a bigger difference on Earth. As cheesy as that sounds, I do believe that my purpose is to serve.

So I recognize that this is not a selfish thing; to grow my money mindset, but it is an asset.

I love to help my family and friends where possible also, and I love to give outwards to causes that are dear to my heart, so this is the point for me.

Money is not a bad thing. GREED IS.

Money in the wrong hands is of course well WRONG.

It creates problems that affect our world every day. But you and me could do so many great things with money.

So I am a great believer in sharing ideas of how to create more of it for the better good of good people.

Simple!

The idea is that, you are going to do is here is to be able to tap into your own power and unlock the growth formula contained within "Think and Grow Rich"...

Let me be extremely honest with you here. There are only a few programs that I have come across that seem to really nail this and I am not talking about teaching it. I am talking about creating growth with life changing results.

Dr. Anthony's HOW TO MAKE YOUR MIND A MONEY MAGNET Is just one of those products which I have found gave me greater personal power.

It might not work for you as of course we are all different, but that comes down to you.

Here's the truth... I know how valuable Dr. Anthony's program is for me, but I also know the economy is

tough and that I owe it to you to do everything I can so you can start using this life changing program now without it costing you an arm and a leg...

So, guess what I did?

Yep, I picked up the phone and called his personal assistant.

I asked her if Dr. Anthony could do something special for my subscribers as I have a loyal following and a professional blog.

So, after a few weeks of communication his assistant called me and said that Dr. Anthony agreed to give you access to **HOW TO MAKE YOUR MIND A MONEY MAGNET FOR FREE**. Pretty dope huh!

He is also giving you an incredible guarantee! And here's the best part, if you are not satisfied, I AM **PERSONALLY GOING TO** help you in a unique half an hour long session myself. So, you have both of us helping you at no extra cost.

I know that the fact that this totally free is probably making you think BUT WHY?

Many things which are free are crap - we all know that!

And he could have charged a nice price for this i believe, as I have bought many products on clickbank and other sites which I have paid for but are not as powerful in my opinion.

HOW TO MAKE YOUR MIND A MONEY MAGNET is for you to harness right now - and with this being free Dr Robert is just thankful that you have trusted him and that's his won words not mine. So he can show you the total power which is created within this product!

MY REVIEW: HOW TO MAKE YOUR MIND A MONEY MAGNET By Dr Robert Anthony

My conclusion:

I just want to make it very clear that - some things work for some of us and some things work for others. So, we have to find what works best for our us with tools and resources. I personally found this useful and so share it with those whom I think will like to try it, but others I wouldn't. That's personal choice. But I tend to point out that if life isn't going the way you want it to, and has been the same for far too long and it has been a struggle, then is it worth trying something else?

Therefore, it depends on what you find useful 'or not', and sometimes this happens through trial.

But I will say, would you agree that we are energy and matter?

Also would you agree that, our energy can be high or low?

Also would you agree that we can program our minds?

Then this is something which can certainly enhance our experience should we wish to apply its teaching.

Now, you may be unsure of wanting to apply the last sentence, but indeed its down to choice. But, every day we give out energy - and if we feel great more often this energy can help us, and we are so much more receptive to what we can achieve, we can increase our daily levels of success and productivity.

So, I would say that our job then is to use what tools we feel are there for us to help us and to enhance this power? This tool does just that for me and some of my clients who choose to it, as do other tools.

My philosophy is that - we have to find out what our priorities are around the most important areas to work on in our lives. If it is in this area of money then find what works and develop a habit which can support you and your growth.

As always I wish you the very best

Greg
