The 5 Step Formula For Earning \$10k Per Month By Mark Ling Affilorama

Let's start this off with this disclaimer: Nothing is ever guaranteed in life or business as you may know, and so just be aware of this and of the fact that, not all people will see or demonstrate success from this.

The reason for that is because 'all success' comes down to personal application. If we are not accountable, responsible or able to commit to training, taking the right actions and applying what is taught then no matter how effective a training or system is - this will not matter.

Mark Ling nor myself take any responsibility in what you can do or not do. Therefore neither of us can make any guarantees to you whatsoever regarding your success and from this report or any other training. It is up to you to hire a financial professional or expert when considering investing your own money and risking any capital placed into any business or opportunity.

And there will always be risk involved in investing capital.

Greg De Tisi Small Business Coaching and anything to do with my name or business name and this blog

takes no responsibility for any results or otherwise with regards any programs or systems or training's or financial ventures which i am affiliated with.

Ok, phewwww, now that's over let's get to the fun part shall we?

So, I Felt I Wanted To Share This Because I believe in sharing what works for me.

I don't know you personally - yet I don't think you just landed here for nothing?

I guess that 'like me' you are open minded and interested in financial growth and online income?

So, if that's the case then keep on reading.

Firstly - whilst I am a Coach, author, podcaster and Course creator - I am also an entrepreneur, and so I am always looking for ideas to explore and expand upon. It is just in my nature to look at ideas, and for ways to always increase what I earn in order to make a bigger impact for others - and of course be able to live a life by my own making and design.

This is about affiliate marketing, and you may have heard about this already or even created income streams from it, so if so, great. Then you already know how to promote others product and services for commissions. These can vary greatly depending on the cost and commission structures of what you share. There is a great deal to know about affiliate marketing and it takes a great deal of commitment, learning, testing and tweaking, so it is not something which is as simple as sharing a link and getting paid. It takes trust from potential buyers, repetition, marketing campaigns, revenue and sometimes failures in order to start growing an affiliate marketing business.

I just want you to know that right off the bat.

So, now you know what it's about I wanted to touch on the idea of multiple streams of income.

Design

I believe in life design, and I have crafted my life thusly. I do not believe in making corporations richer, I believe in helping normal people like myself to become self sufficient and this is often achieved through

learning to create more than one stream of income.

So, I believe that we should master something very well in order to live with passion and live with a joy in our role every day, and this is what I did initially with my coaching so I could live my life my way.

But - I also believe from there, we can also look at other areas to increase our products and services, but only when we have mastered something fully first.

For example - I am a Small Business Expert and I first studied this and mastered this before I added a blog, books, courses, affiliate products and services and my own products and services to what I do. Today I have created various products and services and added them to my brand.

We can simply expand and grow our brands and earn more in a variety of ways which means we can then also create cash reserves as back up in order to re-invest and cover unexpected expenses. And we can also create greater lives for our loved ones. At least that is what I believe in.

Certainly, this is what has helped me a great deal.
Income

I do not believe in one stream of income and secondly I love to share what works.

The world is constantly changing online and offline and so we cannot expect there to be guarantees in anything we do, so to secure my own future I like to explore my options.

Also - I am always doing my research on many products and services that I am interested in and also have found of use.

Mark ling has been online for well over 10 years now and in that time I have followed him, his brand and his e-mails. I always do this with people who Interest me and I can say that he is rare in that he operates with total transparency and integrity in all that he does and this is very important to me.

So, having a variety of sources of revenue is something I believe in - because we simply cannot rely wholly on one income online.

And that is because as we touched on, things come and go.

I have been around for over 20 years online and seen so many changes, so I realise that i have to apply various income streams and I can suggest that you do the same.

Also, I suggest that you save some of it, and also re-invest some of it into other areas to grow other sources of income plus save some for unexpected expenses which can and will happen.

By doing this you create more security around your life and businesses.

In case I need to remind you right away - there is already a few important points there.

1. Follow those whom you admire, respect and who you can learn from
2. Never rely on just one form of income online
3. Do one thing very well and then move on

Today Mark has a very successful online empire which has various products and services.

I say that because unlike alot of 'so-called' guru's who try and pass off the next best product as THE BEST YET or anything else, Mark produces what he creates with immense value.

I have studied his stuff for many years and read his FREE report for getting into \$10k per month online - and it is a very concise and simple proven method - or should I say set of methods.

So, this will remove any confusion you may be having about how this actually works by a proven Internet millionaire.

Where is the review part of this then?

Having been through the training and applied what Mark teaches I started to slowly increase my weekly revenue commissions and upon application of specific and certain techniques which Mark teaches in a super simple way, this helped me to expand my affiliate streams - and I still continue to do so as I applied these techniques to various affiliate programs.

I have studied many affiliate programs and systems and I can say without doubt that this is the most newbie friendly so, even if you have no prior experience in this field this won't matter as long as you can apply what you learn.

I have been creating affiliate marketing income for some time now, and I have been testing, tweaking and changing marketing and techniques according what works and what doesn't. And things always change, as I am sure you now know, but - certain principles will always work when applied correctly.

Good news

With Mark Ling's training you will find a complete and thorough system that literally walks you through each part of the process step by step so you don't feel overwhelmed 'even if you are not that techy'. I am not that techy myself, so if I can apply it I am sure that you can also.

You will see inside 'The 5 Step Formula For Earning \$10k Per Month' which is completely FREE that Mark Ling gets right to the meat. I loved it 'even though' I knew of some of the methods he was discussing somewhat, so, it was still a very fun read and if I had read this 10 years ago I would probably be close to being a millionaire by now. I do say that very humbly, but I struggled for many years initially to see ANY income, so I just mean that it would have been great back then had I applied it.

As it happens, it has taken me many years to refine my own brand and income - but I am glad to say that for you it doesn't need to be many years.

For you this could take just a few weeks or months if applied with total focus.

I have learned a great deal from many various experts, coaches, entrepreneurs, and great marketers as you may have, and this of course includes Mark Ling and his products.

What's more, he is a good down to earth guy with a family, and he's caring and loves helping people (just like myself) so, I had no problem in sharing this guy's stuff with you today.

**What I really love about Mark
is many things but here are a
few of them:**

- 1) THE STYLE OF How Mark Ling and HIS PRODUCTS and SERVICES Are Open and Honest**
- 2) THE OFFER OF JOINING FOR JUST \$1 FOR 30 DAYS TO SEE WHAT YOU THINK**
- 3) HIS ABILITY TO CREATE SO MANY TRULY VALUABLE MONEY MAKING PRODUCTS**
- 4) THE RESULTS THAT CAN BE ACHIEVED VERY QUICKLY BY FOLLOWING Mark**
- 5) ALL OF THE FREE STUFF YOU GET JUST BY SIGNING TO HIS NEWSLETTER**

Again - this ain't complicated.

And that's the beauty of this compared to SO MANY over engineered affiliate programs out there.

The truth of the matter is that there are many ways to create a \$10k+ per month income online, but, they all take consistent effort, non stop action and the kind of focused determination one would expect from an athlete.

The reason why so many struggle to reach this first mile stone is because they simply cannot stick to something long enough to see it through until completion. And they often cannot keep growing from there.

There is an illusion that working online is simply sitting in Bermuda shorts on a nice warm beach somewhere, sipping a blue drink whilst someone massages your feet.

Now, don't get me wrong - this is an awesome goal as I know myself, but it takes those specific steps and alot of hard work to get there, and also putting in the hours in order to begin growing to the point where one can hire other experts and create more time leverage.

What is my exact point?

Don't go into any business with a lazy mind. Just because something is online it doesn't mean that it will be easier, in fact in some ways it is more difficult because so many treat it like a fun part time role way before any progress has been made. Then nothing happens.

We need plans, strategies, accountability, measuring, experts, knowing numbers and being able to manage ourselves for any worthy revenue goal to become a consistent or regular thing.

I know, I am too darn giving aren't I?

My mother always taught me to have compassion, serve others and give without expecting anything back - and this has helped me in life and business in so many ways. I believe in helping others who may be stuck like I once was. So, whatever I learn and go through I try to grow and expand and this means sharing what I learn with others.

One thing that I have to say also is that - there are many crappy programs out there, sorry but true, and I bought most of them, so you don't need to make those mistakes yourself, if you can learn from other experts who have already gone through the years of trials and testing.

I am sure Mark remembers his first few years online and I will never forget my first few years online.

I joined many different MLM programs and network marketing gigs and I soon got pissed off with them and how they were not making me feel passionate. Not only that, but they were not really supportive enough for me and I found myself going from one thing to another.

These companies were really nothing to do with me or my passions.

Once I learned TO OWN what was mine it gave me positioning, a feeling of accomplishment, pride, and not to mention growth, so I highly recommend that you build something for YOU and do so with various revenue streams.

Tip: Forget trying a gazillion things in making money as it probably hasn't worked so far, has it?

If it has then awesome, I am more than pleased for you. I am thrilled that you are growing and succeeding, but, if not, then why not grab the tools you need to succeed and start here.

Mark and his tools are of a HIGH standard in our industry - and I would suggest to anyone who I have coached that we need to copy experts and add our own unique edge - always.

After all - why do we need to reinvent the wheel? We don't!
