## How To Turn Passions Into Profits (FREE 7 VIDEO Mini eCourse)

How To Turn Passions Into Profits (FREE VIDEO eCourse)

**Can I ask you a question? When was the last time you got out your thinking cap?**

I'm sure every day you need it just as I do, so I am sorry if that sounded cheeky!

But imagine if you could learn some new stuff NOW and actually create a purpose driven lifestyle from it! Sound a bit far fetched?

Well in fact, it takes hard work, but you can do exactly this in life. I have and I have learned to turn my passions to profits.

So I made a simple quick video course for you which shows exactly what I have been teaching for the last 15 years from what I have learned to master.

Now, just to be clear, I know that many people would LOVE to do what they are passionate about and get paid for it, right? Sure, but many will never get there sadly for a variety of reasons. But when putting in the right effort, focus and specific action taken, consistency you can make it, YET many never really get started.

OR they give up half way through, as they get overwhelmed.

These are well known reasons for quitting.

But a life of design can be achieved with the right plan and vision.

**These days a great deal of people are finding themselves stuck, stressed and struggling in lives, careers and businesses they have no passion for and It's commonplace. But it's also sad! We tend to fall into lives we are not totally happy with YET we put up with second best.**

Now I am not saying that we shouldn't be grateful for what we have in our lives, I AM, but even though we can be very grateful for what we have we may also strive for more or something different.

**But, it's just that many of us get into lives we often have little to no interest in. Then we wonder why we hate our lives.**

Sorry if that sounds a bit dramatic - but I am sure you get the general picture.

**Many people live in a cycle of perceiving that 'their life is what it is'. And what they see and are a part of is ALL THERE IS! But, in fact - with a little training these people could change everything - if only they got their thinking caps on!**

So, you can try my free video series to see if it can help you out NOW, so you can stop getting overwhelmed and confused about what to do with your life. That's up to you of course, but I also have a further more in-depth training which is below.

This course for [just £29.70 HERE you also get my \\$10k per month blueprint](#) which you can see below, which has several ways to \$10k as well as the way I mastered. So, the immense value you will get is beyond anything I would have ever gotten from buying over priced products from 'guru's. This is REAL. Not some hypey stupid over promised crap which is flooded al over the internet.

## How To Turn Passions Into Profits

Now I teach my clients a process called Discover, Design and Develop which means that I help them discover their passions and ideas and define what they would be best off doing, then we together design the right type of role and business from this with a market need, and from there develop this with the right marketing, sales, branding etc. Essentially it's the whole thing.

**The truth is I hate to see struggle - I don't like seeing so much suffering from truly decent people, and that's why I spend my time helping others to cultivate and create lifestyles they can be happy with. My belief is that, we should be happy doing something we enjoy as we spend most of our time doing it. Agreed?**

I am lucky enough to be consulting and writing books, travelling with my laptop and supporting those who want to LOVE what they do also.

But, will say that - as glamorous as that sounds, it wasn't quite that simple for me just over 15 years ago. I had to learn, try many things and develop as much as I could by myself - as I had no help. I wasted time and money and looking back, and I would have done many things differently but, I learned, got the t-shirt and applied what I learned.

Now, today I am glad I never gave up on my vision, and I have the education and experience which is priceless.

So what's your vision?

What are you doing about it?

**I also have a free webinar you can check out if you like - just click the image below.**

How To Turn Passions Into Profits

Basically, I thought it was only right to get out a course showing my readers (YOU) HOW I did it. And this is really just a basic introduction into what I did, but it matters to start right I believe. Why?

Because I see too many people not applying the initial stuff the right way, and then they struggle. Plus they skip over the vital elements and components and miss what is required of us to grow something worthy from our core values.

**THIS IS YOUR LIFE!** This is no rehearsal!

## **So, I decided to create this course and my 'How To Turn Passions Into Profits Course is FREEEE!**

I have also [created a self study to further take your studies into creating a \\$10k per month Business](#) if that's something you would be interested in either now or after you have seen this?

So, the idea here is that 'you' or anyone else can simply plug into a step by step training, learn the techniques and apply them in a process I have laid out into videos and various other training's. In fact, I have thrown in a coaching session with me for 1 hour also so that together we can create a crystal clear vision for you to start living a life designed by you. Again that's [the course which is here](#) IF you want to bypass the free training below.

**The trouble is, making an income from your passions is quite rare because of what I mentioned just now.**

**Also, many of us have been sold on the often over-hyped, over-salesy crap that has polluted the internet for over 15 years, and I have seen it and I am sure you have also. But, I am luckily not a fan of spending many thousands of dollars on yet more products that just don't deliver. Enter my self study course which is made entirely BY ME. So there is nothing I have hired for or missed out or over complicated, you will be glad to hear.**

**Oh... and I am not going to start creating a massive hype or any frenzy around something that would cost you the Earth and not really deliver.**

Not everyone will be able to follow their passions and earn from them as they love their passions to be separate from their work, and others simply don't believe it or have too much fear around change, so this is CERTAINLY NOT for everyone, but - it's a great low cost introduction. That's really the way to see it.

**We have all bought those products which over promise and under deliver right? Of course, but, that's the point; we don't need to, we just need a roadmap and less complication around where to aim and focus our efforts.**

**The way I see it is, I have learned from everything that I have experienced, but I am a positive type of guy so I carried on and moved forward. I will tell you now that YOU don't have to try a million things to help you either, only to feel deflated again and again like so many of these 'programs' products and launches tend to create.**

**In simple terms I created a FREE 7 Day video e-course just to warm you up and show you what I did to turn my life around 15 years ago from being depressed, struggling, embarrassed and broke to becoming one of the worlds most highly sought after coaches and writers. I now have 26 books on success and happiness and create easy to use courses so that anyone can start changing their lives.**

**I am of course super thankful that I have been able to help hundreds of my clients around the world to do what they love and now you can also.**

So, here it is:

What I have done in this course is to create videos using a white board to show you the simple steps used to tap into your passions and start discovering what you may want to do with them.

*I mean in simple terms, why waste time doing stuff we hate?*

That's why I have been beavering away creating this course for you for the last 6 months.

*I will show you HOW TO look at ideas, roles, businesses and new lifestyles - and ALSO how to create \$10k months doing something you love just as I do. In fact - I even have months which are way better than that, and you could also, but it's a great start to work towards don't you think?*

My suggestion to you would be, simply check out the video series and if there is something that resonates with you then stick around as my self study may be just what you have been looking for.

My self study which is just £29.70 with no fees whatsoever, is worth WAYYYY MORE, but as I am a normal, hard working working class guy, I didn;t want to charge silly money. So, you get so much for that price and it is nothing like I would have ever gotten back in the day.

This post comes 2 weeks after I have started selling my Self study course BUT - the first buyers DIDN'T GET as much as you will get now (sorry to those guys and gals) but it was super cheap then, and now it's worth a great deal more; Because I keep adding more. I finished the course and shared it with a few of my buddies, associates and JV partners initially and now it's rolling out.

Each person has reported back to me what they loved the most and they have been enjoying the fruits of their self study. So I have been continually revising it to make it greater from feedback and from what works.

**I have been in business for well over 15 years and I have bought just about every product, course and teaching out there by many of the worlds greatest 'so called' guru's. I have applied it all and let me tell you, sustainable success takes some time, no matter what.**
