Local Bristol Printing Business and Charity Recommendation

I don't usually outright promote anything as a post, but as I work with various charities I do like to support their message, and I have been working with a charity recently that I have a great passion for, in my home town of Bristol.

So I wanted to let you know a bit about what they do.

And - as I fully support their business and message, I wanted to share with you my recommendation of this small business, because I believe in the business and in helping my community to succeed.

So, PROPS is a charity in Bristol who support adults with learning difficulties to work and to earn a wage. This means that individuals can become self sufficient and confident in roles whereby the employees may thrive and work with their greatest strengths.

I visited the business recently and spoke to the team in order to help with business planning and strategy, and as they have decided to include further services in the business model I thought it was time to help them expand a little more.

So, not only do PROPS offer a variety of printing needs and requirements which include bags, work wear, t shirts, pop up signs, and other printing, they have also began creating misted window filming for homes and businesses in and around the Bristol area and wish to grow this aspect of the business.

If you have any printing requirements and live in the Bristol area or the surrounding area then you may wish to consider PROPS as they are a deeply passionate small business team, professional and it helps a great cause in the community, plus they are competitively priced. On top of that, you are directly helping to support a growing small business service, a charity and message.

You can visit their website to see what PROPS are doing @ <https://www.propsbristol.org/print-services> and to find out more about how they will be able to help you with your printing needs.

Learn more here about the real difference PROPS makes: <https://www.propsbristol.org/the-difference-we-make>

Also, if you have a local business and wish to support this charity with your requirements then you will be joining other local businesses who have supported this message, and your business can be featured at the website which will further help the advertising and promotion of your own business.

I am sure that you will see when visiting the site and learning more about PROPS how passionate and driven the team and employees are about their business, and this is what really struck me when I visited the premises.

Thank you for reading this post, and if you have any questions whatsoever about this business and how they may be able to help you then don't hesitate to contact me here or contact the website.
